Legal Description of Property: (Attach if necessary) Lot (17) Seventeen of the Plat of Cedar Acres
Subdivision in the Southwest Quarter of Section 24, Township 88 North, Range 5 West of the 5th P.M.,
subject to all easements and restrictive covenants of record.

1. Wells (check one)

☒ There are no known wells situated on this property.

☐ There is a well or wells situated on this property. The type(s), location(s) and legal status are stated below or set forth on an attached separate sheet, as necessary.

2. Solid Waste Disposal (check one)

☒ There is no known solid waste disposal site on this property.

☐ There is a solid waste disposal site on this property and information related thereto is provided in Attachment #1, attached to this document.

3. Hazardous Wastes (check one)

☒ There is no known hazardous waste on this property.

☐ There is hazardous waste on this property and information related thereto is provided in Attachment #1, attached to this document.

4. Underground Storage Tanks (check one)

☒ There are no known underground storage tanks on this property. (Note exclusions such as small farm and residential motor fuel tanks, most heating oil tanks, cisterns and septic tanks, in instructions.)

☐ There is an underground storage tank on this property. The type(s), size(s) and any known substance(s) contained are listed below or on an attached separate sheet, as necessary.

5. Private Burial Site (check one)

- ☒ There are no known private burial sites on this property.
☐ There is a private burial site on this property. The location(s) of the site(s) and known identifying information of the decedent(s) is stated below or on an attached separate sheet, as necessary.

6. Private Sewage Disposal System (check one)

- ☐ All buildings on this property are served by a public or semi-public sewage disposal system.
☐ This transaction does not involve the transfer of any building which has or is required by law to have a sewage disposal system.
☒ There is a building served by private sewage disposal system on this property or a building without any lawful sewage disposal system. A certified inspector's report is attached which documents the condition of the private sewage disposal system and whether any modifications are required to conform to standards adopted by the Department of Natural Resources. A certified inspection report must be accompanied by this form when recording.
☐ There is a building served by private sewage disposal system on this property. Weather or other temporary physical conditions prevent the certified inspection of the private sewage disposal system from being conducted. The buyer has executed a binding acknowledgment with the county board of health to conduct a certified inspection of the private sewage disposal system at the earliest practicable time and to be responsible for any required modifications to the private sewage disposal system as identified by the certified inspection. A copy of the binding acknowledgment is attached to this form.
☐ There is a building served by private sewage disposal system on this property. The buyer has executed a binding acknowledgment with the county board of health to install a new private sewage disposal system on this property within an agreed upon time period. A copy of the binding acknowledgment is provided with this form.
☐ There is a building served by private sewage disposal system on this property. The building to which the sewage disposal system is connected will be demolished without being occupied. The buyer has executed a binding acknowledgment with the county board of health to demolish the building within an agreed upon time period. A copy of the binding acknowledgment is provided with this form. [Exemption #9]
☐ This property is exempt from the private sewage disposal inspection requirements pursuant to the following exemption [Note: for exemption #9 use prior check box]: _____
☐ The private sewage disposal system has been installed within the past two years pursuant to permit number _____.

Information required by statements checked above should be provided here or on separate sheets attached hereto:

**I HEREBY DECLARE THAT I HAVE REVIEWED THE INSTRUCTIONS FOR THIS FORM
AND THAT THE INFORMATION STATED ABOVE IS TRUE AND CORRECT.**

NARRATIVE INSPECTION REPORT

Jeffery Sinkey Property -25870 214th Ave., Delhi, IA 52223

HOME DESCRIPTION:

This is a Three bedroom/one bathroom cabin on Lake Delhi. There is no basement. Wastewater drains via gravity to septic tank. The gravity sewer line exits towards the north yard and drains to a 500 gallon concrete, unknown brand, single compartment septic tank. There is a 20" diameter surface access riser. There is no effluent filter on the outlet in the septic tank. The secondary treatment is one rock & pipe soil absorption line approximately 40' long, unable to follow or find exact placement of the original line.

Distance from Septic tank to shared well is >500'

Secondary treatment is >500'

CONDITION:

Concrete septic tank was pumped on 6-01-2017. Inlet and outlet baffles are concrete, with gas damage. The septic tank liquid level was normal when arrived. The septic tank does have a riser to surface.

The home has been used seasonally, and occupied for a short while before hydraulic load water test on the secondary treatment system was completed. Leech line was probed and found no indication of saturation. However a note to the homeowner is that they need to be aware this secondary treatment system is grossly undersized by today's standards. The secondary treatment is installed in a very well drained area. A map has been drawn with the approximate location and footages.

MES - This septic system does meet the Title of Transfer Inspection criteria in it having secondary treatment.

Company Disclaimer

Based on what we were able to observe and our experience with on-site wastewater technology, we submit this sanitary sewage disposal system inspection report based on the present condition of the on-site sewage disposal system. Groth Services LLC has not been retained to warrant, guarantee, or certify the proper functioning of the system for any period of time in the future. Because of the numerous factors (usage, soil characteristics, previous failures, etc.) which effect the proper operation of a septic system as well as the inability of our Company to supervise or monitor the use or maintenance of the system, this report shall not be construed as a warranty by our Company that the system will function properly for any particular buyer. Groth Services LLC DISCLAIMS ANY WARRANTY, either expressed or implied, arising from the inspection of the septic system or this report. We are also not ascertaining the impact the system is having on the ground water. I have studied the information contained herein and that my assessment is honest, thorough, and to the best of my ability correct. This Narrative report may not be copied without written approval from Groth Services LLC.
