We then cameraed to find distrubtion box and located it. We dug up distrubtion box and found it to be plastic and cement. The box looked good and had 5 lines coming out of it. we probed the lines and found them to be 100ft long and dry. We then pumped the septic tank and found it to be a 2000gallon 2 compartment tank. The septic system accepted water very well. the system worked at time of inspection.**
