Narrative Report

TOT Inspection Report Overall Narrative Comments: **Everything was functioning as designed at the time of inspection. This property had a prior inspection done on 02/12/2026 by Groth services. Tank was pumped by Groth. When we inspected it on 05/15/2026 we ran 600 gallons through the dbx and all lines were taking water as designed. Recommend pumping every three to four years. Do not park, plant or drive on the Lateral Field. This inspection in no way makes Harter Custom Pumping responsible for the continued operation of this septic system.**
