Narrative Report

TOT Inspection Report Overall Narrative Comments: **Everything in good working condition at the time of inspection. The leach field is fairly small for the size of home. Do not drive, park or plant on leach field. Recommend pumping every three to five years. Unique system with tank for the house and a second tank for an old trailer house, they are both tied together now into the same manifold system. This inspection in no way makes Harter Custom Pumping responsible for the continued operation of this septic system.**
