Narrative Report

TOT Inspection Report Overall Narrative Comments: **This is a 3-bedroom home on Lake Delhi w/ no basement. System was installed in July of 1996 by others. The septic tank is a Custom Precast, 750 gal. two compartment tank, not a 1,000 gal. as stated on County permit. Tank is in good condition with some gas damage. The distribution box is the old-style concrete with some gas damage. The soil absorption system is a 400 sq ft gravel and pipe bed. There are some roots showing in the pipe exiting the d-box on the NW line but taking water. The system accepted the required water load (250 gals) without any slowness or backups.**
