Narrative Report

TOT Inspection Report Overall Narrative Comments: **Everything was in good working order at the time of inspection. The tank was pumped a year prior to inspection and did not need to be pumped at this time. There is a filter on this system that needs to be cleaned one time per year. It was cleaned at the time of inspection. Recommend pumping the tank every three to four years depending on use. Do not park, plant or drive on the absorption bed. This inspection in no way makes Harter Custom Pumping responsible for the continued operation of this septic system.**
