

EXHIBIT 7a
19-3

SUBORDINATION AGREEMENT

LINE LIST 351

On this 21 day of June, 19 73, the undersigned, being the holder of an easement for a right-of-way contract option dated February 7, 1941 (recorded in the office of the Recorder, County of Madison, State of Iowa, in Book 75, at Page 480) now outstanding against all or part of the land described in the easement executed on February 7, 19 41, by William L. Burgett to Standard Oil Company (Ind) now AMOCO for pipeline purposes, in consideration of one dollar (\$1.00) 5.00 and other good and valuable consideration, the receipt whereof is hereby acknowledged, hereby agrees that said easement for a right-of-way contract option, mentioned above, is and shall be subject and subordinate to the rights and privileges granted by the easement dated June 12, 19 63, from Charles A. Burgett to County and the Madison County Soil Conservation District, which is recorded in the office of the Recorder, County of Madison, State of Iowa, in Book 92 at Page 124, only on that portion of the property described below:

NW $\frac{1}{4}$, NE $\frac{1}{4}$, SE $\frac{1}{4}$ of SW $\frac{1}{4}$; W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 2 T77N, R26W.

It is expressly understood that this agreement shall not affect the rights and privileges now owned or acquired in the future by the grantor of this subordination agreement authorizing the construction, operation, and maintenance of the above said works of improvement in, under and over the lands aforesaid, except to subordinate its rights and privileges to those of the county and district mentioned above insofar as they conflict. Any of such construction, operation, maintenance or other rights acquired by the grantor of this subordination agreement affecting the aforesaid improvements within said land shall not, however, at any time, interfere with the free and unobstructed use and enjoyment by the county and district of said lands. It is further expressly understood that future operations by the grantor of this subordination agreement, such as the construction of other facilities, shall not be considered to conflict with the Badger Creek Watershed Grade stabilization flood retarding structure provided such facilities do not involve large surface structures and providing that such facilities are constructed so that they do not interfere with the flood retarding structure and can withstand inundation during high water stages in the reservoir resulting from the operation of said flood water retarding structure and so that the facilities will not create floating debris.

IN WITNESS WHEREOF, the Grantor has caused this instrument to be signed and attested on this 21 day of June, 19 73.
