These trends have shaped the political and social landscape of the United States and have influenced the development of various policies and programs. The 1970s, for example, saw the passage of the Clean Air Act and the Endangered Species Act, which were landmark pieces of legislation aimed at protecting the environment. The 1980s saw the rise of the Reagan Revolution, which emphasized free-market economics and a strong military. The 1990s saw the end of the Cold War and the beginning of a new era of international cooperation and globalization.
