1. The Grantee is granted the right to plan, survey, construct, improve, maintain and inspect a dam that may place permanent and/or temporary water on the Grantor's property to serve as a grade stabilization structure to stabilize grade, reduce gully erosion, and/or improve water quality on the Grantee's property. The area is shown on the aerial map dated 4/13/2018. The parties understand that the aerial map is not a certified survey; that it is attached solely for the purpose of describing the intended project and not as an engineering or land surveying document, and that minor changes in the project may be made at the time of construction. For the purposes stated in this easement, Grantee or its authorized agents shall have the right of ingress and egress at any time and at locations as determined by the Grantee upon the above-described land.

3. The rights granted by this easement shall terminate at any time when mutually agreed upon by the Grantor and Grantee, provided, however, that such termination occurs no earlier than the expiration or cancellation of any maintenance or performance responsibilities between the Grantee and the Madison County SWCD. The parties shall be responsible for written notification to any present tenant or subsequent tenant of the existence of this easement and where a copy of the same may be located.
4. The Grantee is authorized to employ private contractors who shall enjoy the same privileges and rights under this easement as the Grantee. In accordance with an agreement between the United States and the Grantee, the United States and the Madison County SWCD shall enjoy all of the rights and privileges of the Grantee under this easement.
5. The undersigned hereby states that he or she has been advised of the right, pursuant to 7 C.F.R.
